SUMMARY

Fullstack Software Engineer with 4+ years building scalable applications using React, Next.js, Node.js, and Express. Strong in REST/GraphQL API design, AWS (Lambda, S3, EC2, CloudWatch), and CI/CD automation. Proven impact on system optimization, developer productivity, and security through OAuth2/JWT authentication, role-based access, and performance tuning across frontend and backend layers.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, SQL (PostgreSQL), HTML5, CSS3
Frontend: React, Next.js, Tailwind CSS, Material-UI, Responsive Design
Backend: Node.js, Express, REST, GraphQL, Postman (API testing)
Cloud/DevOps: AWS (Lambda, S3, EC2, CloudWatch), Docker, AWS CI/CD (CodePipeline, CodeBuild)
Security: OAuth2, JWT, RBAC, Encrypted Payloads, Input Validation
Collaboration/Tools: Git, Azure DevOps, Storybook, Figma

EXPERIENCE

- | | |
|---|-----------------------|
| Software Engineer
<i>SysCloud — Hyderabad, India</i> | Aug. 2022 – Present |
| <ul style="list-style-type: none">Owned and refactored a core “actions” module, reducing 55 files to 6 via JSON-driven class factory pattern; cut redundancy by 75% and boosted productivity.Designed and maintained REST and GraphQL APIs supporting backup, restore, and export; validated with Postman automated testing.Implemented payload compression/encryption across frontend/backend, ensuring security and scalability for large requests.Built an MSP Partner Portal with OAuth2, JWT, and RBAC for secure multi-tenant access.Developed serverless flows with AWS Lambda and managed assets in S3; deployed workloads on EC2 with monitoring in CloudWatch.Implemented AWS CI/CD pipelines (CodePipeline, CodeBuild) to automate testing/deployment; reduced release cycles by 40%.Integrated AI-assisted automation (Claude, Langflow) to accelerate debugging and reduce support dependency. | |
| Software Engineer Intern
<i>SysCloud — Chennai, India</i> | Sep. 2021 – Aug. 2022 |
| <ul style="list-style-type: none">Built and maintained an internal MSP portal (20+ screens) with dashboards, login, and user/business management.Worked on core modules integrating product actions like Restore, Export, and Backup Now across backend APIs. | |

PROJECTS

- | | |
|--|------|
| Dematrix Website <i>Next.js, Prismic, React, Tailwind CSS</i> | 2025 |
| <ul style="list-style-type: none">Delivered a client marketing site with Prismic CMS and responsive UI in Tailwind.Optimized SEO and performance with WebP conversion, lazy loading, and bundle tuning. | |

EDUCATION

- | | |
|---|------------------------------|
| Lovely Professional University
<i>B.Tech in Computer Science (Hons), CGPA: 8.0/10</i> | Punjab, India
2018 – 2022 |
|---|------------------------------|
